Summary

I am currently pursuing a Bachelor of Computer Applications (BCA) at Amity University, Gwalior, with a strong interest in software development and technology research. My goal is to become a skilled Software Engineer capable of building efficient, scalable and user-friendly applications. I actively participate in hackathons, business competitions and technical events to challenge myself beyond academics and enhance my real-world problem-solving approach. During my journey, I have secured 1st position in the SISTec competition and achieved the 2nd Runner-Up position at IIITM, where I collaborated with a team to develop and pitch innovative solutions. These experiences improved my coding skills, teamwork, leadership, and presentation abilities. I am continuously learning new technologies, building projects, and exploring software development as a career path. I aim to join a growth-oriented environment where I can contribute meaningfully and evolve as a technology professional

Experience

Jun 2025 - PRESENT

Web Developer

Amity University (AU), Gwalior, Madhya Pradesh

Education

2024 - 2027

Amity University (AU), Gwalior, Madhya Pradesh

Graduation • Ceramic Design • Web Development

Certification

Mega Monthly Quiz

Honored to receive a Certificate of Appreciation from Netclan for participating in the Mega Monthly Quiz. Grateful for the opportunity to learn, challenge myself, and grow. Looking forward to many more such experiences!

Arjuna 2.0 - Northeast Tech Summit 2025

I completed the Arjuna 2.0 - Northeast Tech Summit 2025 certification from the National Institute of Technology (NIT), Agartala, showcasing my skills in event coordination and technology project management. This experience complements my education in computer science, enhancing my ability to organize successful tech initiatives.

Brand Combat

Honored to secure 1st Position with my team in the Brand Combat competition at SISTec Business School – Sagar Exuberance 4.0, Bhopal. 🏆

Skills

- Business Ethics
- C Programming Language
- CSS
- Data Structures and Algorithms
- Database Management Systems (DBMS)

Responsibility

Amity University (AU), Gwalior, Madhya Pradesh

Technical Team Member

As a tech member of the Amity Coding Club, I actively contribute to coding activities, technical discussions, and project development initiatives within the club. I participate in coding challenges, workshops, and collaborative sessions that strengthen my problem-solving, programming, and teamwork skills. Being part of the club helps me stay updated with emerging technologies while contributing to a vibrant tech community on campus.
